RELEASE VERSION

Version 1.0 (Production Verified)

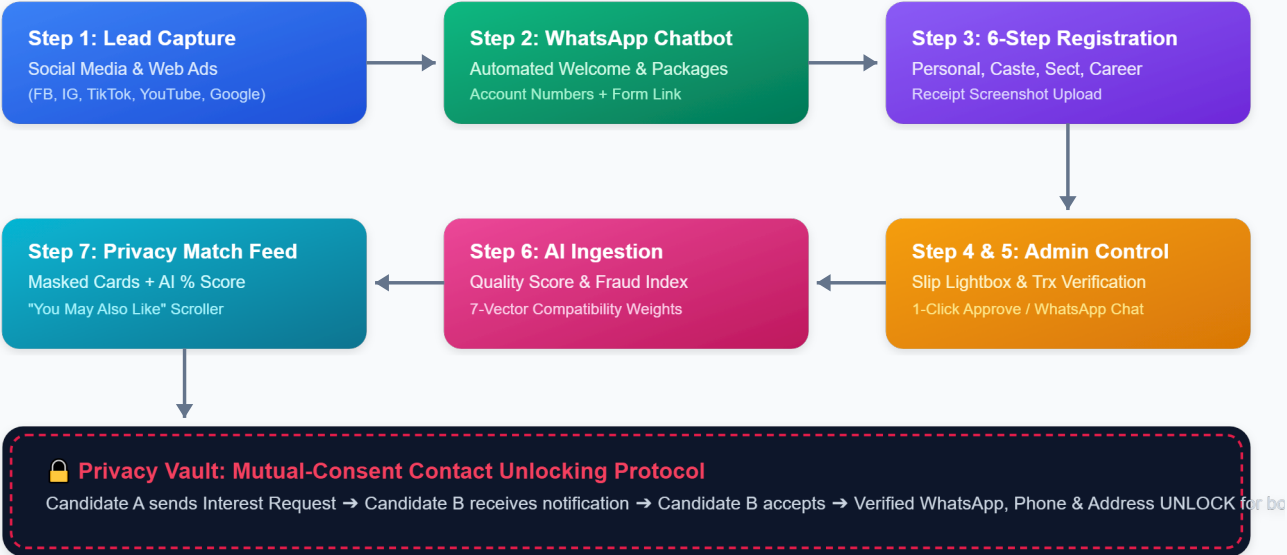

STATUS

100% Implemented & Validated (0 Errors)

1. Master End-to-End Platform Lifecycle

The **Compatible Matrimonials** platform integrates lead generation, WhatsApp bot automated auto-replies, dynamic multi-step registration, manual payment verification, AI compatibility vectoring, and mutual-consent privacy controls into a unified high-trust ecosystem.

Master Lifecycle Flowchart (Step 1 to Step 7)

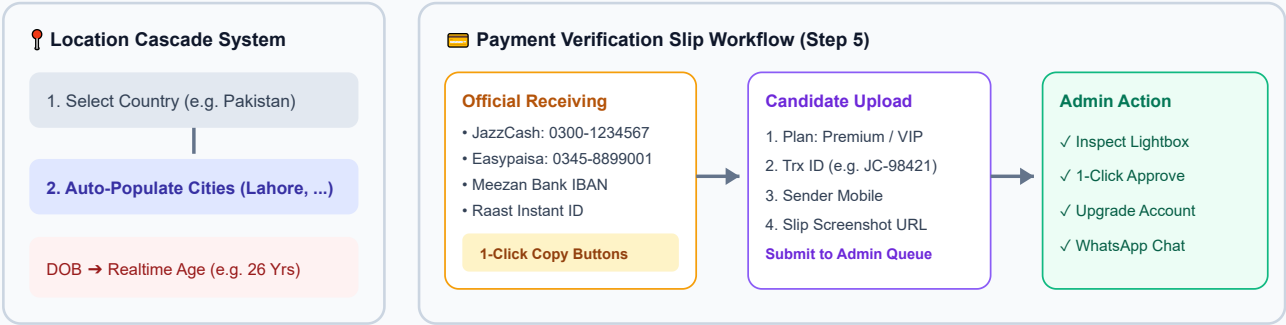

2. Six-Step Registration Wizard Architecture

The registration system captures full personal, socio-cultural, and professional background with real-time dynamic validations, country-to-city dynamic dropdown cascades, and integrated payment slip proofing.

STEP	MODULE TITLE	CAPTURED DATA FIELDS	VALIDATION
Step 1	Personal & Location	Full Name, Email, Password, WhatsApp/Phone, Gender, DOB (Age auto-calculated), Height, Weight, Marital Status, Religion, Sect / Firqa , Caste / Zaat , Mother Tongue, Nationality, Country & City (Cascading Dropdown), Province, Residential Area.	Mandatory
Step 2	Education & Career	Highest Qualification (PhD, MBBS, Masters, Bachelors, CA, Law), University / Institution, Field of Study, Profession / Occupation, Company, Monthly Income Bracket , Employment Sector.	Mandatory
Step 3	Family Background	Father's Occupation, Mother's Occupation, Brothers Count, Sisters Count, Family Type (Nuclear/Joint), Living Status (Own House / Rented), Dietary Values (Halal Only), Smoking, Drinking, About Family.	Standard
Step 4	Partner Preferences	Age Min/Max Range, Height Range, Marital Status, Preferred Sects, Preferred Castes (Syed, Rajput, etc.), Preferred Cities/Countries, Education, Profession, Income Expectation, Notes.	Standard
Step 5	Photos & Payment Proof	Profile Photos, Headline Bio, Membership Package Selection (Basic / Premium / VIP), Payment Method (JazzCash / Easypaisa / Meezan Bank / Raast), Transaction ID (Trx Code), Sender Account, Payment Slip Screenshot URL .	Verification
Step 6	Consent & Submission	Terms of Service checkbox, AI Compatibility Matching consent checkbox, Truthfulness certification under penalty of account suspension.	Legally Binding

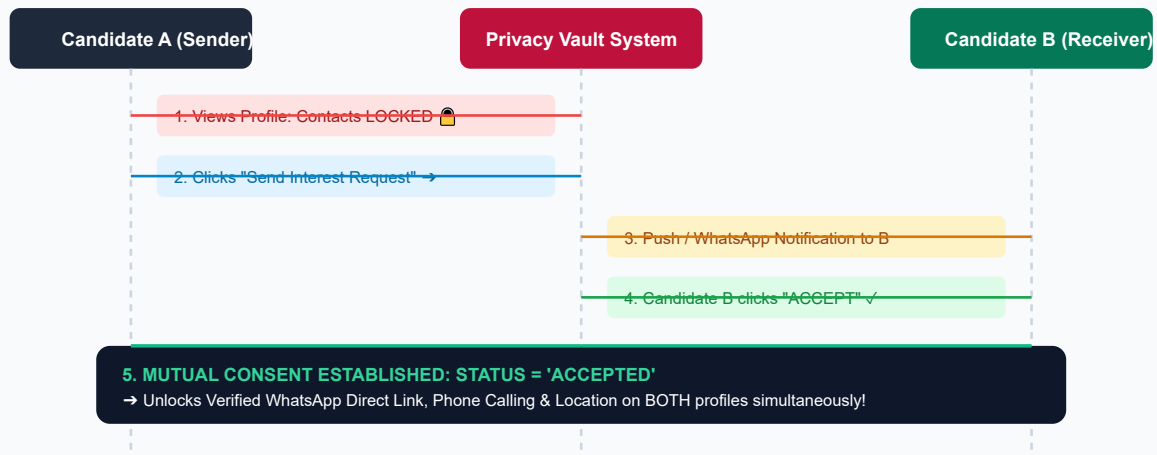

Registration, Dynamic Cascades & Payment Slip Flow

3. Privacy Vault & Mutual-Consent Contact Protocol

To safeguard high-profile candidates, families, and educated professionals, **no phone numbers, WhatsApp links, exact residential addresses, or CNICs are exposed publicly**. Contact access follows a strict cryptographic-style mutual handshake.

⚠ Mutual Handshake Sequence Diagram for Contact Unlocking

4. 7-Vector Weighted AI Compatibility Engine

The AI recommendation system computes an aggregate compatibility metric (0% to 100%) by evaluating seven weighted dimensional vectors between candidates, driving the "You May Also Like" recommendation scroller.

🔍 Dimensional Vector Weight Breakdown

DIMENSION	WEIGHT	CRITERIA
Age Alignment	15%	Within specified tolerance window
Location & City	15%	Same country/city preference
Education Pedigree	15%	Degree equivalence (MBBS, Masters)
Profession & Sector	15%	Corporate, medical, business sync
Lifestyle & Diet	15%	Halal values, smoking, drinking habits
Family Background	15%	Family type (Nuclear/Joint), origins
Marital Status	10%	Never married, divorced alignment

🌟 "You May Also Like" Recommendation Scroller

Mounted at the bottom of `/profile/[id]`. Features smooth horizontal snap scrolling, responsive cards, and live compatibility scores.

[Profile Card 1 (94% Match)] [Profile Card 2 (91% Match)] [Profile Card 3 (88% Match)]

Quality Score: 98%

Fraud Risk: 0% (Verified)

5. Admin Verification & Management Suite

💰 Payment Verification

Dedicated queue for Easypaisa, JazzCash, and Bank slips with receipt lightbox image modal, 1-click subscription upgrade, and rejection logger.

👤 Profile Screening

Audit biographies, photos, AI fraud scores, and issue verified blue shield badges. Direct 1-click WhatsApp message button for applicants.

💬 WhatsApp Lead Funnel

Global floating WhatsApp concierge widget with automated greetings, package rates, and instant customer service redirect.
